### Mauna Loa Erupts; Big Lava Flow. Moving Mile an Hour Toward Kau

#### MOLTEN MASS NOW THREE MILES LONG; NEARS GOVT. ROAD

Signs Indicate Jet of Smoke and Steam Was Released When Mountainside Opened to Emit Living Flames

#### JAGGAR AND WOOD TO STAY NEAR WAIHINU

Volcanologists Plan to Establish Headquarters; Interest Centers in New Outbreak a Short Distance From Kahuku Ranch

[Star-Bulletin Special by Mutual Wireless]  
HILLO, Hawaii, May 22.—Mauna Loa has broken out in eruption again. At 11 o'clock last night, 7000 feet up the lofty mountain, a lava flow broke out on the Kahuku side and is already three miles down the slope. The flow is cutting a path between the flows of 1868 and 1887, and making its way toward Kau, the lava traveling in a southwest direction. Last night newspapers could be read in Kau and Kona by the reflection on the sky.

Prof. T. A. Jaggar, director of the observatory at Kilauea, and Prof. H. O. Wood, his assistant, went over to Kau early today to locate the height of the outbreak. They will establish headquarters at Waihinu. All indications point to the first explosion higher up being a vast jet of steam and smoke released when the mountain side lower down broke open. There is no sign of activity from higher up now. All interest centers in the outbreak at the 7000-foot level. Two flows are now reported, the lava stream having forked. It is coming at the rate of one mile an hour and should reach the government road by dark tonight. It will strike the road about four or five miles on the Kona side of the Kahuku ranch gate.

The Inter-Island Steam Navigation Company here also had a wireless today telling of the new outbreak. This message said: "Flow starting from Mauna Loa Sunday 11:30 p. m. from Kahuku. Reports that broke out 7000 foot level. Is about two or three miles long and extending. Every indication of increasing."

Three Forks Reported. The Inter-Island also had a second message this afternoon as follows: "Lava flow increases; has three forks, one on 1907 flow, one south, and one to Waihinu homestead, eight miles from Waihinu. Very hot, traveling rapidly, and will be in sight of the road tonight, is report from Fredenberg, who went up close to flow."

Confirmatory Message. George Vicars, the Hawaii Promotion Committee man on the Big Island, sent the Promotion Committee the following: "Lava flowing in three streams, one direction 1907, one direction 1868 flow, one approaching Bertelmann's homestead; expected to cross road to-morrow."

#### GEN. AND MRS. EVANS WILL VISIT KILAUEA

Brig.-gen. Robert K. Evans and Mrs. Evans will visit the volcano, leaving here next Saturday in company with Adj.-gen. Samuel I. Johnson of the National Guard of Hawaii. Lieut. Hornaby Evans, aide-de-camp to the general, may also go on the trip. It is planned to return on Tuesday morning.

#### LOWER TRIBUNAL IN COCA COLA CASE REVERSED

[Associated Press by Federal Wireless]  
WASHINGTON, D. C., May 22.—The supreme court of the United States today reversed a federal court in Tennessee which refused to confiscate, on petition of the government, 40 barrels of coca cola, which, it was charged, was being handled in violation of the pure food law. The supreme court's decision sends the case back for presentation to the jury to determine whether caffeine in coca cola is injurious.

The Sunday school of Central Union church and the Kakaako Mission yesterday observed "Humane Sunday" with appropriate exercises. John M. Martin presided at each service.

### DYING CHILD IS TAKEN HOME BY FRANTIC MOTHER

#### Baby Boy Hurt By Dray Removed From Hospital and Dies Later

Henry Correia, 3 years old, died at the Queen's Hospital about 2 o'clock this afternoon. The child was run over at 10:30 this morning near his home by a dray driven by a Japanese, Y. Namura, the owner of the dray, according to the police information, being a Japanese contractor, K. Namura.

Between 10:30 and the time of the little fellow's death the badly injured child had figured in a curious and pathetic series of incidents. He had been taken from the scene of the accident to the city emergency hospital, from there to the Kaulaolani Children's Hospital and from there to his home. The frantic mother went to the hospital in a taxi and insisted on carrying the dying baby away.

The humane officer was notified of the child's plight and about 1:30 a relative of the mother took the suffering youngster to the Queen's Hospital. Now the body has been removed by the coroner to the government morgue.

The Japanese driver was arrested and charged with heedless driving. He is out on bail in the sum of \$250. Deputy Sheriff Asch said this afternoon that the evidence so far obtained tends to show that the Japanese was not at fault for the fatal accident. Stories of witnesses are disconnected and in some cases contradictory.

With his left lung crushed, face bruised and little body hurt internally Henry Correia lay for some time in a hot little room on Vineyard street, just off Liliha street, fighting with death.

According to an eye witness, W. Suenori of the Singer Sewing Machine Co., Henry caught on a brake rod of the dray, fell off and was run over before the driver could stop. Disconnected stories of other witnesses do not bear out this statement, however. Some aver that the little fellow was run over by the Japanese, who tried to hurry away after the accident, but was stopped by the crowd which congregated.

The boy's mother is named Minnie Bartels. She has been divorced from her husband, Correia, say the neighbors. Between sobs this afternoon she told the Star-Bulletin that she had left the three-year-old son in the neighbors' care but that they had neglected him and allowed him to run in the street.

The accident was reported promptly to the police and the little boy taken to the emergency hospital, where he was treated by Police Surgeon R. G. Ayer. Then he was sent to the Kaulaolani Children's hospital where he was attended by Dr. A. G. Hodgins. Both doctors said his left lung

### KAIMUKI WILL PUSH FORWARD COAST DEFENSE

Kaimuki's expected contribution of two companies of territorial militia to coast defense preparedness, drilling at Fort Ruger with the federal artillery ordnance, was promoted at a luncheon given by Ed Towse, chairman of the Kaimuki Improvement Club special committee, at the Commercial Club today noon.

Plans for recruiting were laid out, beginning with a letter in English and Hawaiian to representative men of different parts of the district, who will be asked to present the subject to eligible among their neighbors and friends. Thus it is expected that the canvass will be sufficiently advanced by next Monday to ensure tangible results for reporting at a meeting of the committee and others interested on the evening of that day.

Besides the chairman there were present G. W. R. King, Walter Bromley and Henry Freitas, committee-men; Emil A. Bernat and D. Logan. In addition to the military subject the gathering discussed the organization of a district improvement scheme for permanent street construction in a section between Maunaloa avenue, Waiialea road, Koko Head avenue and Tenth avenue.

### GET POLAR DATA, THOUGH 'CROCKER LAND' WAS MYTH

[Associated Press by Federal Wireless]  
LONDON, Eng., May 22.—Prof. Maurice Tanquary of Chicago, member of the American Crocker Land Expedition, has arrived at Copenhagen and reports that the expedition achieved good scientific results. Ice is holding other members of the expedition with the ship in North Star Bay.

The Crocker Land expedition went north in 1913 to locate the supposed Arctic continent which Admiral Peary reported having seen and which he named "Crocker Land." Ice spoiled the party's plans to return last year and the party has had to stay in the Arctic all this winter and may possibly not get out for many months.

Donald MacMillan, leader of the expedition, wrote back last year that his party saw the same vast expanse of valleys and peaks that Peary had reported but that closer observation proved it an Arctic mirage. Their findings have been generally accepted as proving that "Crocker Land" is a myth, due to an optical illusion. North Star Bay, where their ship is frozen in, is 125 miles south of Etah, and after the party had punctured the story of Crocker Land, it was determined to explore this section of the country for scientific data.
